1. Nature and continuance of operations

UEX Corporation (the "Company") was incorporated under the Canada Business Corporations Act on October 2, 2001. The Company entered into an agreement with Pioneer Metals Corporation ("Pioneer") and Cameco Corporation ("Cameco") to establish the Company as a public uranium exploration company. On July 17, 2002, under a plan of arrangement with Pioneer, Pioneer transferred to the Company its uranium exploration properties and all related assets, including the Riou Lake and Black Lake projects. On the same date, Cameco transferred its Hidden Bay uranium exploration property and certain related assets, in exchange for shares of the Company.

The Company is currently engaged in the exploration and evaluation of its mineral properties located in the province of Saskatchewan. The Company's shares are listed on the Toronto Stock Exchange under the symbol UEX. The home office and principal address is located at Unit 200 – 3530 Millar Avenue, Saskatoon, Saskatchewan, Canada S7P 0B6. The Company's registered office is 885 West Georgia Street, 19th Floor, Vancouver, British Columbia, Canada V6C 3H4.

The Company is exploring and evaluating its mineral properties and has not yet determined whether its mineral properties contain mineral resources that are economically recoverable. The recoverability of amounts shown for mineral properties is dependent upon the discovery of economically recoverable mineral resources, the ability of the Company to obtain the necessary financing to complete exploration programs and development and upon future profitable production or proceeds from the disposition of its mineral properties. The Company performed an evaluation of impairment indicators under IFRS 6 for its mineral properties as at June 30, 2019 and has concluded that there are no indicators of impairment.

The Company has sufficient financial resources for exploration, evaluation, and administrative costs for at least, but not limited to, twelve months from the end of the reporting period. The Company will require additional financing and although it has been successful in the past, there is no assurance that it will be able to obtain adequate financing in the future or that such financing will be available on acceptable terms.

2. Basis of preparation and significant accounting policies

(a) Statement of compliance

These unaudited condensed interim consolidated financial statements, including comparative figures have been prepared in accordance with International Accounting Standard ("IAS") 34 *Interim Financial Reporting*, as issued by the International Accounting Standards Board ("IASB") and do not include all of the information required for full annual financial statements. These unaudited condensed interim consolidated financial statements should be read in conjunction with the Company's annual 2018 audited consolidated financial statements which have been prepared in accordance with International Financial Reporting Standards ("IRFS"). These unaudited condensed interim consolidated financial statements of UEX Corporation were reviewed by the Audit Committee and approved and authorized for issue by the Board of Directors on August 1, 2019.

(b) Functional and presentation currency

These unaudited condensed interim consolidated financial statements are presented in Canadian dollars, which is the functional currency of the Company. Transactions in currencies other than the entity's functional currency are recorded at the rate of exchange prevailing on the date of the transaction. Monetary assets and liabilities denominated in foreign currencies at the reporting date are retranslated to the functional currency at the exchange rate at that date. Translation gains and losses are recorded in profit or loss.

(Unaudited – Expressed in Canadian Dollars)

2. Basis of preparation and significant accounting policies (continued)

(c) Basis of consolidation:

These unaudited condensed interim consolidated financial statements include the accounts of the Company and its subsidiary, CoEX Metals Corporation. Subsidiaries are entities controlled by the Company. Control is having power over the entity, rights to variable returns from its involvement with the entity, and the ability to use its power to affect the amount of returns. All intercompany transactions and balances are eliminated on consolidation.

(d) Use of estimates and judgments

The preparation of unaudited condensed interim consolidated financial statements requires management to make accounting estimates and assumptions requiring judgment in applying the Company's accounting policies. These estimates and assumptions may affect the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities at the date of these unaudited condensed interim consolidated financial statements and the reported amounts of revenue and expenses during the reporting period. Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimates are revised and in any future periods affected. Actual amounts may differ from such estimates. In preparing these unaudited condensed interim consolidated financial statements, the significant judgments made by management in applying the Company's accounting policies and the key sources of estimation uncertainty were the same as those that applied to the Company's financial statements as at and for the year ended December 31, 2018.

(e) Changes in significant accounting policies

The accounting policies applied by the Company in these unaudited condensed interim consolidated financial statements are the same as those applied by the Company in its consolidated financial statements as at and for the year ended December 31, 2018 except as described below.

(f) IFRS 16 *Leases*

Effective January 1, 2019, the Company adopted IFRS 16 using the modified retrospective approach and therefore the comparative information has not been restated and continues to be reported under IAS 17 and related interpretations. IFRS 16 sets out requirements for recognizing, measuring, presenting and disclosing leases.

On initial application, the Company has elected to record right-of-use assets based on the corresponding lease liability. When measuring lease liabilities, the Company discounted lease payments using its incremental borrowing rate ("IBR") at January 1, 2019. The weighted-average rate applied is 7%.

The Company has elected to apply the practical expedient of applying IFRS 16 only to contracts that were previously identified as leases under IAS 17. The Company also applied the recognition exemption to short-term leases with a lease term of less than 12 months.

The following reconciles the Company's lease obligations at December 31, 2018 as previously disclosed in the Company's consolidated financial statements, to the lease obligations recognized on initial application of IFRS 16 on January 1, 2019:

Lease commitments at December 31, 2018	$	411,839
Discounted using the IBR at January 1, 2019		(49,071)
Recognition exemption for short-term lease		(14,438)
Lease liabilities recognized January 1, 2019	$	348,330

(Unaudited – Expressed in Canadian Dollars)

The Company's mineral property interests include both 100% owned projects as well as joint operations in which the Company has less than 100% ownership. The joint operations are governed by contractual arrangements but have not been organized into separate legal entities or vehicles.

The joint arrangements that the Company is party to in some cases entitle the Company to a right of first refusal on the projects should one of the partners choose to sell their interest. The joint arrangements are governed by a management committee which sets the annual exploration budgets for these projects. Should the Company be unable to, or choose not to, fund its required contributions as outlined in the agreement, there is a risk that the Company's ownership interest could be diluted. As a result of decisions to fund exploration programs for the joint arrangements, the Company may choose to complete further equity issuances or fund these amounts through the Company's general working capital.

100% owned projects

(i) Hidden Bay Project

The Company's 100% owned Hidden Bay Project includes exploration areas Tent Seal, Telephone-Shamus, Rabbit West, Wolf Lake, Rhino, Dwyer, and is located in the eastern Athabasca Basin of northern Saskatchewan, Canada.

(ii) Horseshoe-Raven Project

The Company's 100% owned Horseshoe-Raven Project includes the Horseshoe and Raven Deposits and is located in the eastern Athabasca Basin of northern Saskatchewan, Canada.

(iii) West Bear Project

The West Bear Project lands host the West Bear Cobalt-Nickel Deposit and the West Bear Uranium Deposit and are 100% owned by UEX, with the exception of Mineral Lease 5424 which is a joint arrangement between UEX (77.575%), Empresa Nacional Del Uranio S.A. (7.680%), Nordostschweizerische Kraftwerke A.G. (7.68%) and Encana (7.066%).

(iii) West Bear Project (continued)

The Umpherville River mineral claims that are included as part of the West Bear Project are subject to a 2% net smelter return royalty ("NSR") on 20% of the project for each mineral produced (equivalent to a 0.4% NSR on the total project) with the NSR on uranium capped at $10 million.

On March 7, 2018, UEX purchased a single 890 hectare claim from Denison Mines Corp. ("Denison") which was incorporated into the West Bear Project. This claim is subject to a 1.5% NSR royalty to Denison which can be purchased anytime for a cash payment of $950,000.

(iv) Other Projects

UEX acquired the Parry Lake, Laurie North, Christie West, Key West Project, and Axis Lake via staking, the costs of which have been capitalized.

An ownership position in both Parry Lake and Laurie North projects were offered to Orano as per area of interest provisions of the Western Athabasca Option Agreement. Orano elected not to exercise its rights to acquire an interest in the two projects at this time.

The Christie West Project is comprised of two claims adjacent to the Christie Lake Project. An ownership position in these claims was offered to JCU, who elected not to participate in these two claims.

The Key West Project is comprised of three claims west of and adjacent to Cameco's Key Lake Uranium Operation.

The Company holds a 100% interest in the Riou Lake Project located in the northern Athabasca Basin. Original mineral property acquisition costs associated with the Riou Lake Project were written off due to a lack of ongoing exploration activity. UEX continues to maintain several Riou Lake claims in good standing, with nominal re-staking fees for Riou Lake included in mineral property costs.

The Axis Lake property is located just north of the Riou Lake and Black Lake Projects in the Northern Athabasca Basin.

Also included in these acquisition costs are nominal staking fees for Western Athabasca Projects.

(v) Western Athabasca Projects

The Projects, located in the western Athabasca Basin, which include the Kianna, Anne, Colette and 58B Deposits located at the Shea Creek Project, are eight joint ventures with the Company holding an approximate 49.1% interest and Orano holding an approximate 50.9% interest in all projects as at June 30, 2019 and December 31, 2018, except for:

- the Alexandra Project, where the Company has an approximate 39.2% interest as at June 30, 2019 and December 31, 2018;
- the Laurie Project, where the Company has an approximate 33.0% interest as at June 30, 2019 and December 31, 2018;
- the Mirror River Project, where the Company has an approximate 32.3% interest as at June 30, 2019 and December 31, 2018;
- the Nikita Project where the Company has an approximate 22.5% interest as at June 30, 2019 and December 31, 2018; and
- the Uchrich Project where the Company has an approximate 30.5% interest as at June 30, 2019 and December 31, 2018.

The Kianna, Anne and Colette deposits are subject to a royalty of US$0.212 per pound of U_3O_8 sold to a maximum royalty of US$10,000,000.

(v) Western Athabasca Projects (continued)

The Company has expensed $65,142,055 on the Western Athabasca Projects since 2004, including $54,239,845 on Shea Creek, which contains significant resources (see Note 18 *Exploration and evaluation expenditures*). Although no significant acquisition costs have been recorded for the Western Athabasca Projects, UEX has no intention to abandon these projects.

In 2019, Orano proposed budgets of $0.80 million on Alexandra and $2.25 million on Nikita, which UEX has decided not to fund. Interests on these projects are anticipated to drop as follows, should Orano complete the approved programs. This decision does not impact the ownership interest in the Brander, Erica, Laurie, Mirror River, Shea Creek, and Uchrich Projects.

	June 30, 2019 and December 31, 2018			Projected interest, December 31, 2019

Nikita	22.5388	77.4612	100.0000	15.7548	84.2452	100.0000

(vi) Black Lake Project

The Black Lake Project ("Black Lake"), located in the northern Athabasca Basin, is a joint venture with the Company holding a 50.92% interest and Orano holding a 9.08% interest, and ALX Uranium Corp. ("ALX") holding a 40% interest as at June 30, 2019 and December 31, 2018.

On September 5, 2017, ALX and UEX entered into an Option Agreement, under which ALX will have the right to earn a 75% interest in three stages as follows:

- Stage 1 - By completing $1,000,000 in exploration work on the project and issuing to UEX a total of 5,000,000 common shares of ALX to earn an initial 40% interest in the project by September 5, 2018 (completed);
- Stage 2 - By completing an additional $2,000,000 (for a cumulative total of $3,000,000) in exploration work and issuing a further 4,000,000 common shares of ALX to the Company (for a cumulative total of 9,000,000 ALX common shares) to earn an additional 11% interest in the project (cumulative interest of 51%) by March 5, 2020;
- Stage 3 - By completing an additional $3,000,000 (for a cumulative total of $6,000,000) in exploration work and issuing a further 3,000,000 common shares of ALX to the Company (for a cumulative total of 12,000,000 ALX common shares) to earn an additional 24% interest in the project (cumulative interest of 75%) by September 5, 2021.

ALX has completed $1,091,200 of exploration work on the project and issued UEX 5,000,000 common shares of ALX (See Note 11 *Investments*) to earn a 40% initial interest in the project. ALX will be earning its interest in the Black Lake Project exclusively from UEX's interest in Black Lake, and as of June 30, 2019, UEX's interest was reduced to 50.92%. Orano has agreed to waive their first right of refusal on the transfer of any of UEX's ownership interest to ALX.

(vii) Beatty River Project

The Company has a 25% interest in the Beatty River Project, which is located in the western Athabasca Basin. Orano is the operator of this project. Although acquisition costs associated with the Beatty River Project were previously written off, UEX has no intention to abandon this project.

(viii) Christie Lake Project

UEX is the operator of this project located in the eastern Athabasca Basin. Per the Christie Lake Option Agreement ("Option Agreement"), the Company has earned a 60% interest in the Christie Lake Project by making $6 million in cash payments and completing $10,000,000 in exploration work, with JCU (Canada) Exploration Company Limited ("JCU") holding a 40% interest. On November 13, 2018 the Option Agreement was terminated and replaced with the Joint Venture Agreement, thus UEX is no longer eligible to increase its interest in the Christie Lake Project to 70% under the provisions of the prior Option agreement.

In 2019, UEX proposed a budget of $2.0 million, in which JCU has chosen not to participate. Per the Joint Venture Agreement, JCU's interest will dilute accordingly.

	June 30, 2019 and December 31, 2018			Projected interest, December 31, 2019		
Ownership interest (%)	**UEX**	**JCU**	**Total**	**UEX**	**JCU**	**Total**

11. Investments

The Company holds 87,500 and 5,000,000 common shares of Vanadian Energy Corp. ("Vanadian") (formerly known as Uracan Resources Ltd.) and ALX, respectively. These common shares are being held for long-term investment purposes. The shares have been classified as equity instruments carried at fair value, with changes in fair value reflected in other comprehensive income (FVOCI).

Investments		**June 30 2019**		**December 31 2018**
Common shares held – Vanadian [(1)] (TSX.V: VEC) (see Note 16)	$	3,500	$	7,000

	$	303,500	$	307,000

(1) The initial fair value of the shares was $29,750 based on the market closing prices on February 13, 2013 ($27,000) and June 23, 2014 ($2,750), the dates the shares were received.

(2) The initial fair value of the shares was $400,000 based on the market closing price on June 14, 2018 ($0.08 per share), the date the shares were issued.

The fair value of the Vanadian and ALX common shares are based on the market price for these securities.

Other liabilities comprise of general and exploration costs incurred in the period for which invoices had not been received at the balance sheet date.

The flow-through share premium at December 31, 2018 represents the difference between the subscription price of $0.21 per flow-through share and the market price at issuance of $0.20 per common share related to the October 10, 2018 flow-through private placement of 33,202,500 shares ($332,025) (Note 14(b)). Flow-through premium of $14,871 relating to flow-through renunciation under the general rule was extinguished during the year ended December 31, 2018. The remaining flow-through premium of $317,154 has been extinguished in the first quarter of 2019 on the filing and renouncement of the tax benefits to the subscribers of the placement effective December 31, 2018.

13. Lease liability

The Company has obligations under operating leases for its office premises, which expire between October 2020 and February 2024.

		June 30 2019		January 1 2019
Current	$	99,496	$	94,725
Non-current		202,526		253,605

Balance, June 30, 2019	381,385,811	205,031,650

On October 10, 2018, the Company completed a flow-through private placement of 33,202,500 common shares at a price of $0.21 per common share, for gross proceeds of $6,972,525. Share issue costs included the agent's commission of $418,351 and other issuance costs of $140,619. A flow-through premium of $332,025 related to the sale of the associated tax benefits has been recorded in share capital.

(c) Share-based compensation

Under the Company's share-based compensation plan, the Company may grant share purchase options to its key employees, directors, officers and others providing services to the Company. The maximum number of shares issuable under the plan is a rolling number equal to 10% of the issued and outstanding common shares of the Company from time to time. Under the plan, the exercise price of each share purchase option shall be fixed by the Board of Directors but shall not be less than the quoted closing market price of the shares on the Toronto Stock Exchange on the date prior to the share purchase option being granted and a share purchase option's maximum term is 10 years. The shares subject to each share purchase option shall vest at such time or times as may be determined by the Board of Directors.

14. Share capital (continued)

(c) Share-based compensation (continued)

The share-based payments reserve values of $698,744 as at June 30, 2019 and $2,259,558 as at December 31, 2018 on the balance sheet reflect the expensed fair value of vested share purchase options. If all options that are vested were exercised, the entire balance of the share-based payments reserve would be transferred to share capital.

The estimated fair value expense of all share purchase options vested during the three-month period ended June 30, 2019 is $352,099 (2018 - $430,969). The amount included in exploration and evaluation expenditures for the quarter ended June 30, 2019 is $52,951 (2018 - $51,827) and the remaining $299,148 (2018 - $379,142) was expensed to share-based compensation.

The estimated fair value expense of all share purchase options vested during the six-month period ended June 30, 2019 is $492,896 (2018 - $558,254). The amount included in exploration and evaluation expenditures for the six months ended June 30, 2019 is $76,280 (2018 - $68,184) and the remaining $416,616 (2018 - $490,070) was expensed to share-based compensation.

The fair value of the options granted each period was determined using the Black-Scholes option-pricing model with the following weighted-average assumptions:

	June 30 2019	**June 30 2018**
Number of options granted	6,800,000	6,975,000
Expected forfeiture rate	2.53%	2.41%
Weighted-average grant date share price	$0.18	$0.28
Expected volatility	67.09%	67.68%
Risk-free interest rate	1.34%	2.10%
Dividend yield	0.00%	0.00%
Expected life	4.60 years	4.54 years
Weighted-average grant date fair value	$0.10	$0.15

(d) Flow-through shares

The Company has financed a portion of its exploration programs through the use of flow-through share issuances. Income tax deductions relating to these expenditures are claimable by the investors and not by the Company.

As at June 30, 2019, the Company had spent $4,351,261 of the $6,972,525 flow-through monies raised in the October 10, 2018 placement. The Company renounced the income tax benefit of the private placement to its subscribers effective December 31, 2018. The Company incurred $20,181 in Part XII.6 tax on unspent amounts in the six months ended June 30, 2019 (2018 - $5,312), which has been accounted for under financing and interest expense.

Balance, December 31, 2018	*16,903,394*	0.42
Expired	*(681,000)*	0.30
Balance, June 30, 2019	*16,222,394*	$ 0.42

During January 2018, 22,761,905 warrants were exercised and 2,000,000 warrants expired. Accordingly, the Company issued 22,761,905 common shares for gross proceeds of $5,028,572.

On February 27, 2019, 681,000 warrants with an exercise price of $0.30 expired.

As at June 30, 2019 the Company's outstanding share purchase warrants had expiry dates and exercise prices as follows:

Expiry Date for Warrants	Number of Warrants	Exercise Price
February 27, 2020 (3 year life)	*15,999,994*	0.42
December 14, 2019 (2 year life)	*222,400*	0.42
Balance, June 30, 2019	*16,222,394*	$ 0.42

15. Management of capital

The Company's objective when managing capital is to safeguard the Company's ability to continue as a going concern in order to pursue the exploration and evaluation programs on its mineral properties. The Company manages its capital structure, consisting of shareholders' equity, and makes adjustments to it, based on funds available to the Company, in order to support the exploration and evaluation of its mineral properties. Historically, the Company has relied exclusively on the issuance of common shares for its capital requirements. The Company has not changed its approach to capital management during the current period and is not subject to any external capital restrictions.

(Unaudited – Expressed in Canadian Dollars)

16. Management of financial risk

The Company operates entirely in Canada and is therefore not subject to any significant foreign currency risk. The Company's financial instruments are exposed to limited liquidity risk, credit risk and market risk.

Liquidity risk is the risk that the Company will not be able to meet its financial obligations as they fall due. The Company manages liquidity risk through the management of its capital structure as outlined in Note 14. Accounts payable and other liabilities are due within the current operating period.

Credit risk is the risk of an unexpected loss if a third party to a financial instrument fails to meet its contractual obligations. The Company's exposure to credit risk includes cash and cash equivalents, amounts receivable and deposits. The Company reduces its credit risk by maintaining its bank accounts at large national financial institutions. The maximum exposure to credit risk is equal to the carrying value of cash and cash equivalents, amounts receivable and deposits. The Company's investment policy is to invest its cash in highly liquid short-term interest-bearing investments that are redeemable 90 days or less from the original date of acquisition.

Market risk is the risk that changes in market prices such as foreign exchange rates and interest rates will affect the Company's income. The Company is subject to interest rate risk on its cash and cash equivalents. The Company reduces this risk by investing its cash in highly liquid short-term interest-bearing investments that earn interest on a fixed rate basis.

All financial instruments measured at fair value are categorized into one of three hierarchy levels, described below, for disclosure purposes. Each level is based on the transparency of the inputs used to measure the fair values of assets and liabilities:

- Level 1 - Values based on unadjusted quoted prices in active markets that are accessible at the measurement date for identical assets or liabilities;
- Level 2 - Values based on quoted prices in markets that are not active or model inputs that are observable either directly or indirectly for substantially the full term of the asset or liability; and
- Level 3 - Values based on prices or valuation techniques that require inputs that are both unobservable and significant to the overall fair value measurement.

The carrying values of cash and cash equivalents, amounts receivable, and accounts payable and other liabilities are a reasonable estimate of their fair values because of the short period to maturity of these instruments.

Cash and cash equivalents are classified as financial assets at amortized cost and are initially recorded at fair value and subsequently at amortized cost with accrued interest recorded in accounts receivable.

The following table summarizes those assets and liabilities carried at fair value:

Investments – as at December 31, 2018	**Level 1**	**Level 2**	**Level 3**	**Total**

21. Related party transactions

The value of all transactions relating to key management personnel, close members of the family of persons that are key management personnel and entities over which they have control or significant influence are as follows:

(a) Related party transactions

Related party transactions include the following payments which were made to related parties other than key management personnel:

	Three months ended June 30		Six months ended June 30	
	2019	2018	2019	2018
Cameco Corporation [(1)]	$ -	$ 441	$ -	$ 441
Management advisory board share-based payments [(2)]	192	879	423	1,920
	$ 192	$ 1,320	$ 423	$ 2,361

(1) Payments related to fees paid for use of the Cameco airstrip at the McArthur River mine.
(2) Share-based compensation expense is the fair value of options granted which have been calculated using the Black-Scholes option-pricing model and the assumptions disclosed in Note 14(c).

(b) Key management personnel compensation

Key management personnel compensation includes management and director compensation as follows:

	Three months ended June 30		Six months ended June 30	
	2019	2018	2019	2018
Salaries and short-term employee benefits [(1)(2)]	$ 149,517	$ 168,656	$ 304,826	$ 305,388

	$ 469,813	$ 530,985	$ 772,370	$ 784,387

(1) In the event of a change of control of the Company, certain senior management may elect to terminate their employment agreements and the Company shall pay termination benefits of up to two times their respective annual salaries at that time and all of their share purchase options will become immediately vested with all other employee benefits, if any, continuing for a period of up to two years.

(2) In the event that Mr. Lemaitre's (UEX's President and CEO) employment is terminated by the Corporation for any reason other than as a result of a change of control, death or termination for cause, the Corporation will pay a termination amount equal to one year's base salary plus any bonus owing. All other employee related benefits will continue for a period of one year following such termination. Mr. Lemaitre may also terminate the employment agreement upon three months' written notice to the Board and receive a lump sum payment equal to his base salary plus benefits for three months.

(3) Share-based compensation expense is the fair value of options granted which have been calculated using the Black-Scholes option-pricing model and the assumptions disclosed in Note 14(c).

(4) Represents payments to Altastra Office Systems Inc., a company owned by Wylie Hui, and Evelyn Abbott for CFO services rendered to UEX.

22. Contingencies

Due to the size, complexity, and nature of the Company's operations various legal matters are outstanding from time to time. By their nature, contingencies will only be resolved when one or more future events occur or fail to occur. The Company accrues for such items when a liability is both probable and the amount can be reasonably estimated. In the opinion of management, based on the information currently available, these matters will not have a material adverse effect on the consolidated financial statements of the Company.
